## Superior Lacrosse Camp

This camp will concentrate on teaching advanced skills and game situations. From beginners to serious lacrosse players, the camp is geared to help the player grow by elevating both their technical and tactical game skills. Our camp will incorporate competitive drills and games so that the player will be challenged in many ways each day.

### Our staff will teach campers:

- Stick handling skills, passing, offence & defensive skill, transition play, half-field and full-field games geared towards individual skill level.
- Self-confidence and the importance of a positive attitude, both individually and as a team.
- In small group instruction with one-on-one play to improve basic and fundamental skills.
- Uniquely designed regimes to ensure that new skills are applied in game situations throughout the days of the camp.

*It is our promise that each camper will leave with a better knowledge and enjoyment of the game.*
